

RITRANSPARENCY REPORT 2019

Metzler Asset Management GmbH

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the PRI website, ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the reporting period specified above. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information.

PRI disclaimer

This document presents information reported directly by signatories. This information has not been audited by the PRI Secretariat or any other party acting on their behalf. While this information is believed to be reliable, no representations or warranties are made as to the accuracy of the information presented, and no responsibility or liability can be accepted for any error or omission.

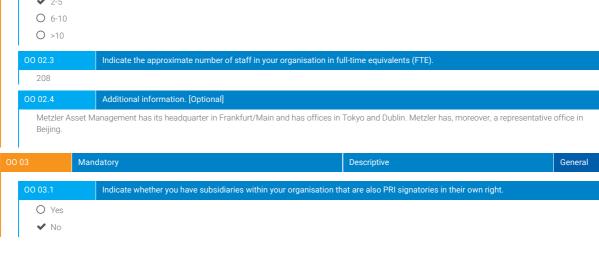

Usage restrictions

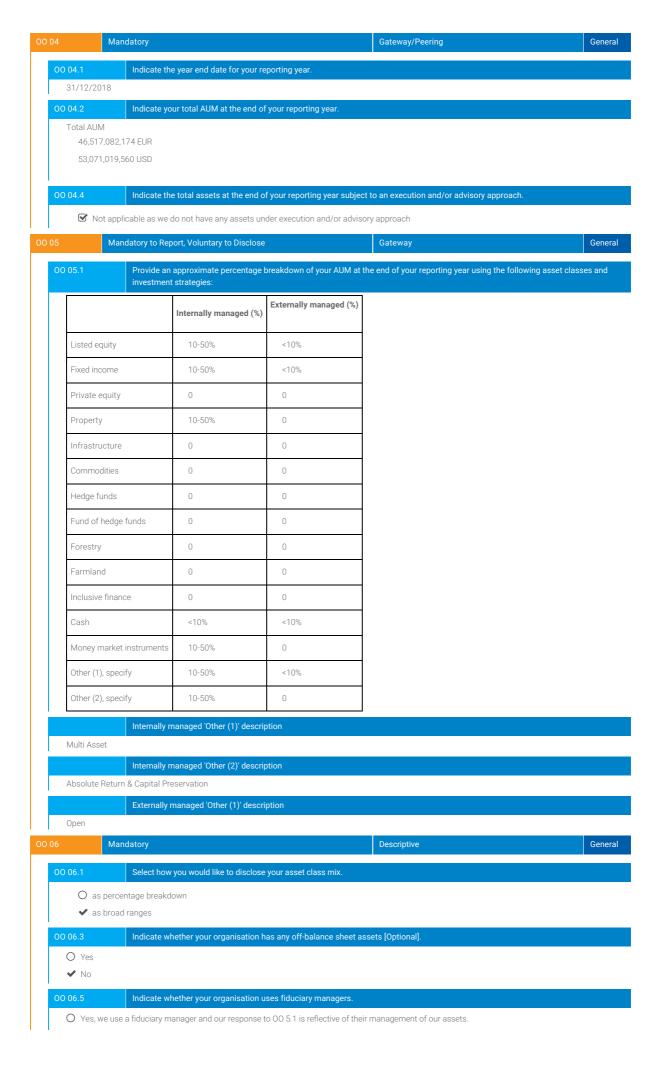

Public Transparency Reports are the intellectual property of PRI. In no case, can this report or any content of it be sold to other parties.

Third party organisations who have accessed Transparency reports outside of the Data Portal and intend to use those require the prior written consent of PRI (other than for internal use or research or for the sole benefit of the organisation whose report this refers to).

We impose high ethical standards on ourselves and our staff to prevent advisory services, order execution or asset management services being

influenced by outside interests. We expect careful, honest, lawful and professional conduct at all times, compliance with market standards and, in particular, close attention to the interests of our clients. Our staff are required to comply with these standards and obligations.

We have an **independent compliance office** which reports directly to the management. It is responsible for identifying, avoiding and managing conflicts of interest also in the matters concerning the investment process. We will disclose unavoidable conflicts of interest to the client affected before the conclusion of a transaction or before providing advisory services. Further details of the present principles and the handling of conflicts of interest are available on request.

Regarding the investment process, we possess with MIG21 (GX Compliance) an automatic controlling system to check the compliance of legal, contractual and internal restrictions.

discuss business-relevant ESG challenges in their talks with companies. BMO Global Asset Management also exercises voting rights and prepares ESG engagement reports, including the engagement milestones reached. BMO Global Asset Management's approach to engagement is based on constructive and confidential company dialogue and on building a relationship of trust, where over time we seek to gain a sound understanding of how companies manage the key ESG issues linked to their activities. We will encourage improvement in ESG management should they deem existing practices insufficient to respond to ESG risks and/or opportunities. PRI 1,2,3 Indicate the method of engagement, giving reasons for the interaction. Reason for interaction Type of engagement ☑ To influence corporate practice (or identify the need to influence) on ESG issues ▼ To encourage improved/increased ESG disclosure Individual / Internal staff engagements f Z To gain an understanding of ESG strategy and/or management ☐ We do not engage via internal staff ☐ To influence corporate practice (or identify the need to influence) on ESG issues ☐ To encourage improved/inreased ESG disclosure Collaborative engagements ☐ To gain an understanding of ESG strategy and/or management ■ We do not engage via collaborative engagements ☑ To influence corporate practice (or identify the need to influence) on ESG issues lacktriangledown To encourage improved/increased ESG disclosure Service provider engagements f Z To gain an understanding of ESG strategy and/or management ☐ We do not engage via service providers Indicate whether your organisation plays a role in the engagement process that your service provider conducts. ✓ Yes Indicate the role(s) you play in engagements that your service provider conducts on your behalf. ☑ Discuss the topic (or ESG issue(s)) of engagement ☑ Discuss the rationale for engagement ☑ Discuss the objectives of the engagement Select the companies to be engaged with ☑ Discuss the frequency/intensity of interactions with companies Discuss next steps for engagement activity Participate directly in certain engagements with your service provider Other; specify ☐ We play no role in engagements that our service provider conducts. O No Mandatory Indicate whether your organisation has a formal process for identifying and prioritising engagements.

Describe your reasons for choosing a particular ESG incorporation strategy and how combinations of strategies are used. For all of the above fixed-income investments, exclusionary screening is applied based on 120 international norms and conventions. The data stems mostly from MSCI ESG Research. In cases of "very severe controversies", i.e. serious infringements of these standards, companies are excluded from our investment universe. Upon client request, we also take other aspects into account in the investment process, such as conclusions drawn from data provided by ISSoekom. ESG integration is a specific strategy for more sustainable investments aimed at improving fund performance by integrating sustainability aspects into the traditional investment analysis proc PRI 1 Private FI 03.1 Comprehensive ESG research is undertaken internally to determine companies' activities; and products and/or services 🗹 Issuers are given the opportunity by you or your research provider to review ESG research on them and correct inaccuracies ☑ Issuer information and/or ESG ratings are updated regularly to ensure ESG research is accurate ☐ Internal audits and regular reviews of ESG research are undertaken in a systematic way. 🗹 A materiality/sustainability framework is created and regularly updated that includes all the key ESG risks and opportunities for each sector/country. Other, specify ☐ None of the above Describe how your ESG information or analysis is shared among your investment team. ☑ ESG information is held within a centralised database and is accessible to all investment staff ■ ESG information is displayed on front office research platforms 🗹 ESG information is a standard item on all individual issuer summaries, research notes, 'tear sheets', or similar documents 🗹 Investment staff are required to discuss ESG information on issuers as a standard item during investment committee meetings Records capture how ESG information and research was incorporated into investment decisions Other, specify ■ None of the above PRI 1 Indicate the type of screening you conduct Corporate (financial) Corporate (non-financial) Securitised **V** Negative/exclusionary screening \checkmark **V Y** \checkmark **V** Positive/best-in-class screening \checkmark \checkmark \checkmark Norms-based screening Describe your approach to screening for internally managed active fixed income For all corporate-bond investments, exclusionary screening is applied based on 120 international norms and conventions. The data stems mostly from MSCI ESG Research. In cases of "very severe controversies", i.e. serious infringements of these standards, companies are excluded from our investment universe. Upon client request, we also take other aspects into account in the investment process, such as negative/best-in-class screenings drawn from data provided Private Indicate which systems your organisation has to ensure that fund screening criteria are not breached in fixed income investments. Type of screening Checks ✓ Analysis is performed to ensure that issuers meet screening criteria ✓ We ensure that data used for the screening criteria is updated at least once a year. ☑ Automated IT systems prevent our portfolio managers from investing in excluded issuers or bonds that do not Negative/exclusionary meet screening criteria screening? f arphi Audits of fund holdings are undertaken yearly by internal audit or compliance functions Other, specify ■ None of the above
